

CAPABILITY STATEMENT

TD and Associates provides practical quality-system, quality-engineering, food-safety, auditing, training, and fractional leadership support to small and mid-sized manufacturers. Services are tailored to each organization's operation, resources, customer requirements, and priorities.

CORE CAPABILITIES

- Quality-management systems and fractional leadership
- Auditing, corrective action, and continual improvement
- Quality engineering and launch support
- Supplier quality and manufacturing controls
- Food-safety systems and workforce training

ENGAGEMENT OPTIONS

- Focused projects and system-recovery support
- Annual internal-audit programs and audit preparation
- Ongoing fractional quality-system management
- On-site and remote training and consulting support

MANUFACTURING EXPERIENCE

- Injection molding and flexible plastics
- Machining and general industrial manufacturing
- Metal fabrication, powder coating, and wet coating
- Food, packaging, and food-contact operations

QUALIFICATIONS

- Experienced ISO 9001:2015 Lead Auditor
- SQF Practitioner
- HACCP Train-the-Trainer
- More than 26 years of U.S. Air Force leadership, inspection, readiness, and training experience
- Retired Chief Master Sergeant and Medical Group Superintendent

BUSINESS PROFILE

- Established in 2018
- Veteran-owned and woman-owned small business
- Based in Celina, Ohio

PRACTICAL SUPPORT FOR REAL OPERATIONS

The goal is not more paperwork or a system that only looks good on audit day. The goal is a system that works every day for the operation, the employees, and the customer.
